 - B. CABD
 - C. ABDC
 - D. CBAD

ANALITICAL AND LOGICAL REASONING

QUESTION 1: Each of the following questions has a series of numbers which follow a definite pattern except for one number. Identify the incorrect term of the series.

4, 18, 48, 100, 180, 295

- A. 18
- B. 295
- C. 180
- D. 48

QUESTION 2: What should come in place of question mark(?) in the following number series.

5, 8, 10, 16, 20, 32, ?

- A. 38
- B. 36
- C. 44
- D. 40

QUESTION 3: In each of the following question select the related numbers/words/letters from the given options. 78 : 225 :: 89 : ?

- A. 305
- B. 289
- C. 324
- D. 296

QUESTION 4: Directions for the following question: In each question below are given two or three statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts and then, decide which of the given conclusions logically follow(s) from the given statements, disregarding commonly known facts.

Statements:

- 1) Some letters are pins.
- 2) Some keys are eyes.
- 3) All letters are keys.

Conclusions:

- 1) Some pins are not letters.
- 2) All pins are letters.
 - A. Only 1 follows
 - B. Only 2 follows
 - C. Either 1 or 2 follows
 - D. Both 1 and 2 follows

QUESTION 5: Below are given three statements. Assume these statements are true irrespective of whether they are true in real life. Each question has two conclusions.

Statements:

- 1) Some pins are boards.
- 2) Some boards are white.
- 3) No pin is a box.

Conclusion I: Some boxes are not boards

Conclusion II: No pins are white

- A. If only conclusion I follows
- B. If only conclusion II follows
- C. If either conclusion I or II follows
- D. If neither conclusion I or II follows

QUESTION 6: Select the odd word/letters/number/number pair from the given alternatives.

- A. 1
- B. 243
- C. 256
- D. 32

Instructions [Q7 – Q9]

An organization decides to distribute seven types of laptops on week days starting from Monday to Sunday. The seven laptops to be distributed are of Sony, Acer, Asus, Dell, HP, Lenovo and HCL but not necessarily in the same order. Dell laptops are to be given on Saturday. Lenovo laptops are given just after Asus laptops and Asus laptops are not given on Wednesday. HP laptops are given three days after the distribution of Asus laptops. Acer laptops are distributed just after Sony laptop. HCL laptops are distributed before Acer laptops. HP laptops are distributed after Dell laptops.

QUESTION 7: If HCL is related with Tuesday, Sony is related with Wednesday, similarly Lenovo is related with which day?

- A. Thursday
- B. Friday
- C. Saturday
- D. Sunday

QUESTION 8: On which day of the week Lenovo laptops are distributed?

- A. Tuesday
- B. Wednesday
- C. Friday
- D. Sunday

QUESTION 9: Which laptops are distributed just between the days when Lenovo and HP are distributed?

- A. Asus
- B. Dell
- C. Sony
- D. HCL

QUESTION 10: If 'DANGER' is written as 'RDEAGN' in a certain code, then how would 'PARALLEL' be written in that code?

- A. LAPAELLR
- B. LPALEALR
- C. LPEALRLA
- D. LPLEARAL

QUESTION 11: Rohit is the son of Rajesh's father's brother's. How is Rohit related to Rajesh?

- A. Cousin
- B. Son-in-law
- C. Nephew
- D. Grandfather

- D. Uncle

QUESTION 13: At what time, between 4 and 5 o'clock, will the minute and hour hands be together?

- A. 24 and 5/7 minutes past 4 o'clock.
- B. 26 and 9/11 minutes past 4 o'clock.
- C. 21 and 9/11 minutes past 4 o'clock.
- D. 20 and 7/9 minutes past 4 o'clock.

QUESTION 14: If 1st July, 1977 was a Friday then 1st July 1970 was a

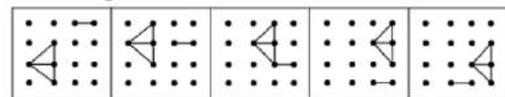

- A. Wednesday
- B. Thursday
- C. Sunday
- D. Tuesday

QUESTION 15: A watch gains 7 seconds in 4 minutes and is correctly set at 10:00 AM. What time will it show at 11:00 PM on the same day?

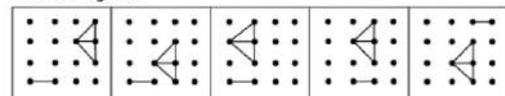

- A. 11:21:05 PM
- B. 11:22:45 PM
- C. 11:21:25 PM
- D. 11:21:55 PM

QUESTION 16: In the question given below, which one of the five answer figures on the right should come after the problem figures on the left, if the sequence were continued.

Problem figures

Answer figures

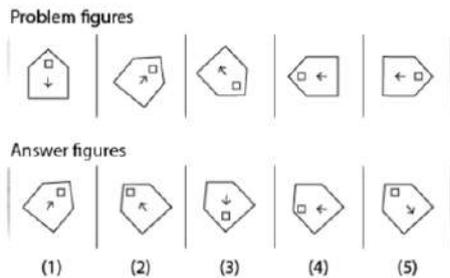

- (1) (2) (3) (4) (5)

- A. (1)
- B. (2)
- C. (3)
- D. (4)

QUESTION 17: In the question given below, which one of the five answer figures on the right should come after the problem figures on the left, if the sequence were continued.

- A. (1)
- B. (2)
- C. (3)
- D. (4)

QUESTION 18: If \$ is an operator such that $2 \$ 5 = 32$, what is the value of $\frac{4\$3}{2\$5}$?

- A. 0
- B. 1
- C. 2
- D. 3

QUESTION 19: Study the following information carefully and answer the given questions:

In a certain code language

'Make your trip interesting' is written as 'de la pa ni'
 'your trip be customized' is written as 'ha ni ta de'
 'customized trip always good' is written as 'ta fa ka ni'
 And 'good make me happy' is written as 'ka ro pa na'

Which of the following represents 'good trip always interesting'?

- A. de ka ni la
- B. fa ni ka ro
- C. na fa de ha
- D. ni fa la ka

QUESTION 20: A statement is given followed by two assumptions numbered I and II. Consider the statement to be true even if it is at variance with commonly known facts. You have to decide which of the assumptions, if any, follow from the given statement.

Statement: After the Reserve Bank of India's adoption of a flexible inflation-targeting framework from August 2016, the rules of monetary policy have changed in India, with the central bank becoming even more focused on anchoring inflation and inflation expectations than ever before.

Assumptions:

- I. There was a perceived need or rationale for the RBI to shift its monetary policy framework in 2016, suggesting that the previous rules may have been inadequate.
 - II. Monetary policy can be adjusted and adapted to changing economic conditions and goals, such as inflation targeting.
- A. Only I
 - B. Only II
 - C. Both I and II
 - D. Either I or II

QUESTION 21: Effect: At least twenty school children were seriously injured while going for a school picnic during the weekend. Which of the following can be a probable cause of the above effect?

- A. The teacher accompanying the school children fell ill during the journey.
- B. The bus in which the children were travelling met with an accident while taking turn on the main highway.
- C. The driver of the bus in which the children were travelling did not report after the break at the halting place on their journey.
- D. The school authority banned all school picnics for the next six months with immediate effect.

QUESTION 22: In the given question below, few statements are given and are followed by two courses of action numbered I and II. On the basis of the information given, you have to assume everything in the statement to be true, and then decide which of the suggested courses of action logically follow(s) for pursuing.

Statement : A large number of people from city X are admitted in hospitals and are diagnosed to be suffering from malaria.

Courses of action :

- I. The municipal authority of the city X should take immediate steps to carry out extensive fumigation.
 - II. City X should be vacated immediately.
- A. Only I
 - B. Either I or II
 - C. Neither I nor II
 - D. Both I and II

QUESTION 23- In the question below, a statement is given followed by two arguments. Choose the most appropriate option.

Statement: Companies serious about more harmonious relationships with the contractual workforce should offer them a pathway to up-skill and be employed as permanent workers over time.

Argument:

- I. Building a good relationship with the contractual workforce will help both the companies and the employees to progress.
 - II. The policy of offering contractual workers permanent status is likely to face opposition from existing permanent staff.
- A. I weakens the statement, whereas II strengthens it.
 - B. Both I and II weaken the statement.
 - C. I strengthens the statement, whereas II weakens it.
 - D. Both I and II strengthen the statement.

QUESTION 24: In the following question, two statements numbered I and II are given. There may be cause and effect relationship between the two statements. These two statements may be the effect of the same cause or independent causes. These statements may be independent causes without having any relationship.

- I. The country has seen no major breakthrough in medical research in the past few years.
 - II. The government, two years back, had banned patents and royalties on medicines.
- A. Statement I is the cause and Statement II is its effect.
 - B. Statement II is the cause and Statement I is its effect.
 - C. Both the statements I and II are independent causes
 - D. Both the statements I and II are effects of independent causes.

QUESTION 25: The question given below consists of some statements. You need to decide which of the statements is/are the cause of the situation or effect of the situation and accordingly choose your answer from the alternative given below each question.

Statements :

- I. A new covid variant named 'Omicron' is spreading rapidly in the country. Lots of new cases are being reported in a short period of time.
 - II. The central government is in a dilemma on whether to proceed with a lockdown or not.
- A. Statement I and Statement II are effects of some common cause
 - B. Statement I is the cause and Statement II is its effect
 - C. Statement I and Statement II are independent causes
 - D. Statement II is the cause and Statement I is its effect

Quantitive Aptitude and Data

Interpretation

QUESTION 1: If $N = a \cdot b$ where a, b are prime numbers, then what are the number of factors of N^3/b^2

- A. 4
- B. 6
- C. 8
- D. 9

QUESTION 2: X is a single digit number such that the LCM of the two digit number $X6$ and 54 is 108 . What is the value of X ?

- A. 3
- B. 4
- C. 2
- D. 1

QUESTION 3: If one of the roots of $ax^2 + bx + c = 0$ is half of the other root, then which of the following conditions must be true?

- A. $b^2 - a^2 = 9ac$
- B. $4b^2 = 9ac$
- C. $b^2 = 18ac$
- D. $2b^2 = 9ac$

QUESTION 4: In a two-digit number, the difference between the digits is 4 , and 10 times the number is equal to 14 times the sum of the number obtained by adding the digits of the original and the number formed by reversing the digits. Find the number.

- A. 84
- B. 26
- C. 62
- D. 51

QUESTION 5: A large cube of volume 64 cubic metre is broken down into small cubes of volume 8 cubic metre each. The percentage increase in the surface area is

- A. 50%
- B. 100%
- C. 200%
- D. 75%

QUESTION 6: A, B and C are employed to do a piece of work for Rs.700. A and B are supposed to finish $\frac{17}{28}$ th of work together. Then, Amount that is paid to C is?

- A. Rs.250
- B. Rs.275
- C. Rs.150
- D. Rs.200

YouTube

QUESTION 7: A tank is fitted with 3 pipes A, B and C. A takes twice as much time to fill the tank as B takes to empty the tank. B takes twice as much time to empty the tank as C takes to fill the tank. If it is known that C takes 10 hours to fill the tank, in how much time three quarters of the tank will be filled provided that all the taps were opened simultaneously?

- A. 7.5 hours
- B. 10 hours
- C. 5 hours
- D. 15 hours

QUESTION 8: Sam and Ram run a 100 m race. Sam beats Ram by 20 m. Sam gives Ram a head start such that both Ram and Sam will be meeting each other at the 75 m mark. What will be the result of the race?

- A. Ram loses by 5m.
- B. Ram loses by 10 m.
- C. Ram loses by 15 m.
- D. The race ends in a dead heat.

QUESTION 9: If $\operatorname{cosec} 30^\circ + \cot 60^\circ = y$, What is the value of y ?

- A. $\frac{2\sqrt{3}+1}{\sqrt{3}}$
- B. $\frac{\sqrt{3}+1}{\sqrt{3}}$
- C. $\frac{3\sqrt{2}+1}{\sqrt{2}}$
- D. $\frac{2\sqrt{2}+1}{\sqrt{2}}$

QUESTION 10: If $a^2=b^3=c^4$, $b^2=d^5$, then find the value of $\log_a b \times \log_e d$.

- A. $\frac{8}{45}$
- B. $\frac{4}{15}$
- C. $\frac{8}{15}$
- D. $\frac{16}{45}$

QUESTION 11: Krishna's piggy bank contains coins in the denominations of Rs. 1, Rs. 2, Rs. 5 in the ratio of 3 : 4 : 5 respectively. If the total value of all the coins combined is Rs.1296, what is the number of Rs. 2 coins in the piggy bank?

- A. 108
- B. 432
- C. 216
- D. 144

QUESTION 12: A person travels one fourth of his distance with 20~km/hr, half of the distance with 40~km/hr and the rest of the distance with 10~km/hr. What is his average speed throughout the journey?

- A. 20~km/hr
- B. 25~km/hr
- C. 30~km/hr
- D. 40~km/hr

QUESTION 13: An arithmetic progression is such that the 12th term is 42. What should the common difference be, such that the product of the first, second and 33rd terms is maximum?

- A. $3/2$
- B. 2
- C. 0
- D. -2

QUESTION 14: In a carom tournament in school all the kids played against each other exactly once. The number of games involving a girl and a boy is 150 and the number of games involving two girls is 60 less than the number of games involving two boys, find the total strength of the school?

- A. 23
- B. 24
- C. 25
- D. 35

QUESTION 15: A bag contains 4 red balls, 5 green balls and 6 yellow balls. Two balls are drawn at random from this bag. What is the probability that exactly one of the balls is yellow in colour?

1. $\frac{21}{54}$
2. $\frac{18}{35}$
3. $\frac{5}{9}$
4. $\frac{2}{5}$

QUESTION 16: A reduction of 20% in the price of rice enables a customer to purchase 4kg more for Rs. 120. Then find original price of rice per kg.

- A. Rs.20
- B. Rs.7.50
- C. Rs.8.25
- D. Rs.12

QUESTION 17: The time required for a sum of money to become 31 times of itself at 15% Simple Interest per annum is?

- A. 50 years
- B. 200 years
- C. 205 years
- D. 175 years

QUESTION 18: A trader mixes 20 kg of rice at Rs.15 per kg with 25 kg of rice at Rs.20 per kg and sells the mixture at Rs.24 per kg. Then find his profit/loss percent.

- A. 33.33% profit
- B. 35% loss
- C. 25% loss
- D. 35% profit
